1. What is the relation between a Controlling Areas and a Company code?

A Controlling area can have the following 2 types of relationship with a Company code

- a. Single Company code relation
- b. Cross Company code relation

This means that one single controlling area can be assigned to several different company codes. Controlling can have a one to one relationship or one to many relationships with different company codes. Controlling Area is the umbrella under which all controlling activities of Cost Center Accounting, Product Costing, Profit Center and Profitability Analysis are stored. In a similar way Company Codes is the umbrella for Finance activities.

2. How many currencies can be configured for a company code?

A company code can have 3 currencies in total. One which is called the local currency (ie company code currency) and 2 parallel currencies can be configured. When you do that the system has the flexibility to report in different currencies.

3. Do you require to configure additional ledger for parallel currencies?

In case 2 currencies are configured. (Company code currency and a parallel currency) there is no need for an additional ledger. In case the third parallel currency is configured and is different from the second currency type, you need to configure an additional ledger.

4. What are Validations and Substitutions ?

Validations/Substitutions in SAP are defined for each functional area eg Assets, Controlling, etc at the following levels

1. Document level
2. Line item level

These need to be specifically activated and setting them up are complex and done only when it is really needed. Often help of the technical team is taken to do that.

5. What are the Customizing prerequisites for document clearing?

Account must be managed on the open item management. This tick is there in the General Ledger Master Record called Open Item Management. It helps you to manage your accounts in terms of cleared and uncleared items. A typical example would be GR/IR Account in SAP (Goods Received/Invoice Received Account)

How do you configure the automatic payment program?
