Hello Community,

Here are some interesting SAP FICO interview questions asked in Accenture Interview for SAP FICO Lead Application Consultant role shared by one of my friend that are very useful for preparation. I thought of sharing them with my network...

1. Introduce yourself
2. Years of experience on SAP Product & SAP S/4HANA
3. Projects you have worked on?
4. Ticketing tools you used?
5. What is SLA?
6. Handling of tickets with a scenario example
7. Process of resolving a configuration issue
8. Process of resolving a transactional issue
9. Approval process in your project
10. Difference between Service Request and Incident
11. Is the client query a service request or incident?
12. Is the configuration issue a service request or incident?
13. How does the revenue account get captured in the O2C process?
14. Explain P2P Process with accounting entries.
15. Explain O2C Process with accounting entries.
16. FI-SD integration points and components.
17. T-code for APP configuration and APP Run.
- 18 APP configuration process.
19. T-code for Dunning configuration & Dunning Run.
20. Maximum dunning levels possible in SAP.
21. Reason for Job Change.
22. Willingness to relocate & work in night shifts
23. Salary expectations
24. Questions for interviewer

👉 While the questions may look basic, there was in-depth cross-questioning if answers were not clear or lacked detail.

🌟 Tips for your next Interview:

1. Listen carefully to the question. If unclear, politely ask the interviewer to repeat or confirm.
2. Take a few seconds before answering. Be clear, structured, and explain in simple terms with enough depth to avoid cross-questioning.

I hope these insights help others preparing for similar interviews. Best wishes to

everyone in their SAP journey 🚀
